- [View Hail Insurance Coverage](#)
- [Finalize Hail Insurance](#)

2. When keying a crop, click **EDIT** (next to the Hail Acres box).

Filter by Crop Type

ALL CONVENTIONAL ORGANIC PEDIGREED POLYCROP FORAGE

Crop Type: Red Spring Wheat (001)

Seeding Date: 2025 Apr 20

Variety Type: Aac Brandon (Bw 932)

Acres: 80

Hail Acres: **EDIT**

Established Year:

3. Make coverage and acre selections.
 - a. Select your coverage level (**Low, Medium, or High**) – Note: You can only select one coverage level per crop.
 - b. Choose either **APPLY TO ENTIRE CROP** or **JUST THIS FIELD**. Note: Selecting “Apply to Entire Crop” will add your selected level of coverage to all future fields of this crop.
 - c. **ADD FIELD & CLOSE** to save.

CURRENTLY GROWING **HAIL**

Coverage NO COVERAGE LOW (\$200) MEDIUM (\$300) **HIGH (\$400)**

This will apply to all fields for this crop.

I acknowledge that I am selecting a lower value of coverage

Acres **APPLY TO ENTIRE CROP *** JUST THIS FIELD

* This option will automatically add Hail Insurance to any existing crop fields.

I acknowledge I am only applying hail coverage to this specific field

OR
